ESRI® SUPPORT FOR ASIA eHEALTH INFORMATION NETWORK

Building a Healthy Community

esri®

HOW WILL YOU
HEALTHY ENVIR

Esri is pleased to join the World Health Organization (WHO) and the Asian Development Bank (ADB) in their support of the Asia eHealth Information Network (AeHIN). Consisting of more than 500 health information systems (HIS) and eHealth professionals in Asia, this community of practice is looking for a better way to apply information and communication technology (ICT) and statistical techniques and use geospatial
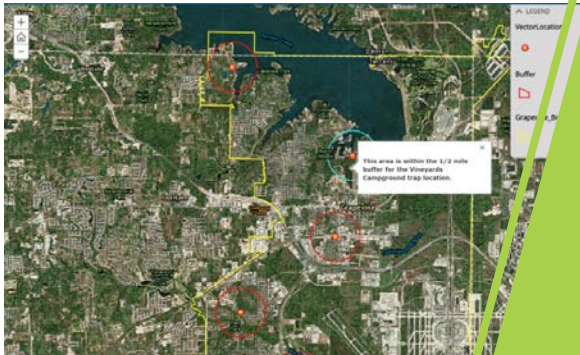

CREATE A SAFE AND
ONMENT?

decision-support tools. Esri and AeHIN have entered into a cooperative agreement to support the AeHIN mission and the activities of the AeHIN GIS Lab to train member countries in best practices.

Esri and AeHIN understand that sustainable development is about worldwide equity and opportunity. In health, this means that throughout their life-span, people can live in safe and healthy environments with access to the care and services they need to promote and maintain good health and well-being. Countries working to achieve sustainable development need tools that help users collect and integrate multiple types of data, discover patterns and trends, make better decisions, and see results. Geographic information system (GIS) technology is a proven tool that makes data actionable. Our cooperative agreement provides for prepackaged offers that will allow you to leverage GIS technology in your work. These specially priced bundles are available until July 31, 2017.

INTRODUCTORY AeHIN BUNDLE

The introductory AeHIN bundle is the perfect starting point for taking full advantage of geospatial technology to prepare for whatever is headed your way. Use optimized tools to help create the data you need to do your work while increasing access to data. ArcGIS® for Desktop and ArcGIS℠ Online will help your organization generate and share work with peer member countries.

Bundle Box

ArcGIS for Desktop
ArcGIS for Desktop Standard with 2 extensions

ArcGIS Online
ArcGIS Online level 1 plan—
Includes 5 named users and 2,500 credits

Also Included
• ArcGIS Open Data
• Collector for ArcGIS

US $5,000 per year

Offers are available until July 31, 2017. Restrictions may apply.

INTERMEDIATE AeHIN BUNDLE

Take your projects to the next level with the intermediate bundle. You can take advantage of the same capabilities found in the introductory AeHIN bundle and further spatially enable and analyze your operations with more licenses for staff who need access to the GIS technology. The intermediate AeHIN bundle puts you on the right track by sharing location intelligence more broadly within your organization, enhancing collaborations that pave the way for a safe and healthy environment.

Bundle Box

ArcGIS for Desktop
- 5 ArcGIS for Desktop Standard licenses with 2 extensions for each desktop
- ArcGIS for Server Enterprise Advanced

ArcGIS Online
ArcGIS Online level 2 plan—
Includes 50 named users and 10,000 credits

Also Included
- ArcGIS Open Data
- Collector for ArcGIS

US $25,000 per year

Offers are available until July 31, 2017. Restrictions may apply.

ADVANCED AeHIN BUNDLE

The advanced bundle is ideal for countries that would like to extend their licensing throughout the organization and facilitate communication between departments. You will have the flexibility to perform analysis and enrich your data at a rate that facilitates faster and more accurate decision-making.

Bundle Box

ArcGIS for Desktop
- 25 ArcGIS for Desktop Standard licenses with 2 extensions for each desktop
- ArcGIS for Server Enterprise Advanced

ArcGIS Online
ArcGIS Online level 3 plan—
Includes 100 named users and 17,500 credits

Also Included
- ArcGIS Open Data
- Collector for ArcGIS

Call for Pricing

Offers are available until July 31, 2017. Restrictions may apply.
